## Forex

Sonaf provides its clients with one of the most advanced Forex trading platform enabling them to trade currency pairs ranging from majors to exotic pairs. Our team of specialists is fully trained to offer any trading platform assistance required and assist with setting up an account for you. The Forex world is truly unlimited with opportunities. Discover the currency markets for yourself today.

## CFDs

CFDs, which stands for Contracts for Difference, allow you to trade on the price movements of shares, indices, currencies, treasuries and commodities. You are able to trade on both rising and falling markets. Drawing on feedback from our clients, we have focused on millisecond execution, competitive pricing and a wide range of advanced trading tools to help you trade a great number of global products.
